## WATER STRUCK ON DRY RANGE

Ranchers Near Alpine Are Drilling Wells—Guayule Advancing.

Alpine, Tex., April 15.—A. S. Gage has struck water in the well he has been drilling on the Greenlee ranch, west of Alpine. Mr. Gage has leased this ranch for 10 years and decided to go after the water as this ranch had been running for years without a well. Water was obtained in tanks since it was thought to be impossible to get water in that country. Mr. Gage had to go 600 feet for water. Experienced men say that water could be found in the larger part of the now so-called dry ranches if they would only go deep enough.

W. M. Johnson has recently found water on his ranch northeast of Alpine in one of these dry belts. His well is 350 feet deep.

Mr. Barris, ranching near Mr. Johnson, also found water on his ranch at a depth of 400 feet. Herman Karger is now drilling a well in the same neighborhood for W. F. Stewart, but is only down 120 feet.

Mr. E. J. Bulet and Berret, from Centennial, Mo., are here looking over some of their property in this country.

The Jordan Marble Quarry company is unable to keep terms to haul its marble to the railroad and is therefore figuring on installing a traction engine.

W. F. McCaughy has purchased the C. E. Summer residence in the west part of town. The consideration was about \$2500. Mr. McCaughy is making some improvements on the place and when he gets it finished he will have one of the finest residences in the city.

D. J. Doss is improving his residence in west Alpine.

W. S. Dunbar has sold one of his rent houses in the eastern part of town to Will Yarbro. The consideration was about \$1500.

Collins, Glasgow & Co. have purchased two sections of land in the southern part of the county.

W. T. Anderson has purchased three lots in the Thomas and Derrick addition.

Mrs. J. M. Foster, of Marathon, is here. Mrs. Foster was formerly a resident of Alpine and is thinking of returning here.

John Harmon has made a record for wolf trapping. Two weeks ago he killed 11 in one day. The lobo is an enemy of the cow and sheep man.

The Haley land case resulted in a mistrial.

J. A. Robertson, who recently moved here from Oklahoma City, has purchased a lot in the southwestern part of town and will begin the erection of a residence on it at once.

Work on the new addition to the Methodist church will begin in a few days. The addition will cost about \$2000.

Census taking began in Alpine Friday morning and the following men are attending to the work: Adolph Daugherty in precinct 1; M. Brown, precinct 2; J. R. Purcell, precinct 3; Francis Hall, precinct 4.

G. W. Martin is home from Del Rio, where he went with his wife who has been quite sick.

People of this country are glad to notice that the price of guayule, used in growing in this country is rapidly advancing, the price now being \$150 per ton.

W. O. Moore will attend the Confederate reunion.

**BLACK AND RICH**  
Is the Way Postum Should Be.

A liquid food that will help a person break a bad habit is worth knowing of. The president of one of the state associations of the W. C. T. U., who naturally does not want her name given, writes as follows:

"Whenever I was obliged to go without coffee for breakfast, I suffered from a headache which would come on before noon. I discovered that, in reality, the nerves were crying out for their accustomed stimulant.

"At evening dinner I had been taught by experience that I must refrain from coffee or pass a sleepless night. While visiting a physician and his wife I was served with a most excellent beverage at their dining table. I was told, upon inquiry, that this beverage was Postum and that the family had been greatly benefited by leaving off coffee and using Postum.

"I was so in love with it, and so pleased with the glimpse of freedom from my one bondage of habit and so thoroughly convinced that I ought to break with my captor, that upon my return home I at once began the use of Postum and have continued it ever since.

"I don't know what sick headache is now, and my nerves are steady, and I sleep sound, generally eight hours. I used to become frequently and require physic; now seldom ever have that experience.

"I have learned that long boiling is absolutely essential to furnish good Postum. That makes it clear, black and rich as any Mocha and Java blend. Please withhold my name, but you may use the letter for the good it may do."

Read the little book "The Road to Wellville," in package. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## PLENTY OF FOOD IN MARKET

People May Now Turn from Roasts, Steaks and Chops to Greens.

The display of vegetables that is being offered on the local market this week is calculated to make the passer-by a gastronomo-maniac with kleptomaniacal tendencies. Practically all good things in the vegetable line are now "in season" and the surfeited millionaires may turn from roasts and such like to green goods. Prices remain practically unchanged from last week's report, though there is a downward tendency.

**Feedstuff.**  
The alfalfa and grain market continues dull and prices remain practically unchanged with the exception of whole-sale oats, which dropped during the week to \$1.90 per cwt. Bleached alfalfa is quoted at \$18 per ton and pea green at \$18. The first shipments of the new crop of alfalfa will probably come in between May 1 and 10, which is about two weeks in advance of last year's crop. The exceptional dullness of the grain market is attributed to the bumper crops made last year. Following are the ruling prices:

Northern Texas hay, \$13  
Corn, wholesale, \$1.60 per cwt.  
Corn, retail, \$1.75 per cwt.  
Oats, wholesale, \$1.90 per cwt.

**Meats.**  
The things that tickle the palate most in the meat line, viz., chicken, lamb, etc., are scarce with a tendency to fix the ordinary man's coop. The usual supply of refrigerated chicken is to be had but chicken "on the foot" is roosting high. Lamb is scarce, its separation from green peas being a deeply-felt scandal in the vegetable kingdom. Following are yesterday's quotations:

Sirloin steak, 20c per lb.

Round steak, 15c per lb.

## TAKING OF CENSUS BEGINS FRIDAY

People of El Paso Should Furnish All Information Asked.

"I'm a regular census enumerator; I'm not a volunteer."

The 24 census takers started on their rounds for Uncle Sam Friday morning bright and early.

The volunteer census has assured El Paso that a correct census will be taken, for many houses in alleys and in the rear of other residences were found by the volunteers and so, if by any mere chance the regular government employees should skip this place, the volunteer count will act as a positive check and El Paso will get justice.

It behooves residents of El Paso to show the same courtesy to the regu-
